Visa for entrance exam
Applicants who take a Spring-term graduate school entrance exam in January, please prepare documents for applying for study abroad visa when you apply for the entrance exam. Refer to 5. Visa for entrance exam for more details.
Take a look on this side if you take a Spring-term graduate school entrance exam in January.
To International Students,
School year begins in April only. Therefore, we recommend you to take a Fall-term graduate school entrance exam in September, because there will be a plenty of time (about half a year) after the announcement of exam result to prepare for your study journey in Japan.
If you take a Spring-term entrance exam, you would only have about two months to prepare for studying abroad in Japan.
